What is Extra Help with Medicare prescription drug plan costs?

Anyone who has Medicare can get Medicare prescription drug coverage. Some people with limited resources and income also are eligible for Extra Help to pay for the costs—monthly premiums, annual deductibles, and prescription co-payments—related to a Medicare prescription drug plan. The Extra Help is estimated to be worth about \$4,000 per year. Many people qualify for these big savings and don't even know it.

To qualify for Extra Help:

- You must reside in one of the 50 States or the District of Columbia;
- Your resources must be limited to \$12,640 for an individual or \$25,260 for a married couple living together. Resources include such things as bank accounts, stocks, and bonds. We **do not** count your home, car, and any life insurance policy as resources; **and**

- Your annual income must be limited to \$16,335 for an individual or \$22,065 for a married couple living together. Even if your annual income is higher, you still may be able to get some help. Some examples where your income may be higher are if you or your spouse:
 - Support other family members who live with you;
 - Have earnings from work; or
 - Live in Alaska or Hawaii.

Can State agencies help with my Medicare costs?

When you file your application for Extra Help, you also can start your application process for the Medicare Savings Programs—State programs that provide help with other Medicare costs. Social Security will send information to your State unless you tell us not to on the Extra Help application. Your State will contact you to help you apply for a Medicare Savings Program.

These Medicare Savings Programs help people with limited resources and income pay for their Medicare expenses. The Medicare Savings Programs help pay for your Medicare Part B (medical insurance) premiums. For some people, the Medicare Savings Programs also may pay for Medicare Part A (hospital insurance) premiums, if any, and Part A and B deductibles and co-payments.
